

**PRODUCT INFO
& DATASHEET**

SICOSAL GRAN DRY

Salmonella inhibitor for animal feeds - Code No AM12

7/05/2017

1. PRODUCT DESCRIPTION

SICOSAL GRAN DRY is a synergistic combination of acids with strong antimicrobial properties, and pH lowering effect

SICOSAL GRAN DRY reduces the growth of pathogenic bacteria in the feed and the gastro-intestinal tract, especially Salmonella

2. COMPOSITION

SICOSAL GRAN DRY is a synergistic formulation of sodium formate, formic acid, propionic acid and sorbic acid

3. PHYSICAL PROPERTIES

- Appearance : free flowing powder
- Colour : white
- Odour : acidic smell
- pH 5% : 3,0-3,5

4. ADVANTAGES

- Reduces Salmonella contamination of feed
- Prevent contamination of Salmonella free feeds
- Improves nutrient digestibility
- Prevents growth of harmful bacteria both in feed and gastro-intestinal tract
- Prevents scouring
- Reduces mortality

5. USE & RECOMMENDED DOSAGE

- Heat treated feeds 2 kg / ton feed
- Non heat treated feeds 3 kg / ton feed

(for severe contaminations higher dosage rates can be recommendable)

6. SHELF LIFE

- Stable for at least 24 months after production date, if stored in dark and cool warehouse

7. PACKING

- 15 kg bags
