Specialty Feed Additives – Prime Series

SICOBAC PRIME LIQUID

Liquid antibacterial based on formic, propionic, lactic and acetic acid and salts. (code nr. 1003564)

9/2014

1. SCOPE

The presence of micro-organisms in animal feedstuffs in particular and in the production environment in general are a major concern for feed and animal producers, for the consumer and for health authorities. The ubiquitous presence of Salmonella, their serious health and economic risk call for thorough hygiene management throughout the entire process from feeding to meat processing until consumption. The antimicrobial activity of certain organic acids especially in well proportioned and reacted synergistic combinations are widely recognised.

2. DESCRIPTION

Premixture. A well balanced mixture of powerful organic acids and salts.

3. COMPONENTS

Formic acid and Propionic acid and their salts, Lactic acid, Acetic acid, carrier.

4. PHYSICAL & TECHNICAL SPECIFICATIONS

Physical appearance	:	liquid
Colour	:	light brown
pH (10%)	:	2 – 3
Moisture	:	Max 57 %
Specific gravity	:	1.08 – 1.1 g/ml

Colour change or variation does not affect performance.

5. APPLICATION & DOSAGE

Feed: 3 - 4 kg/T, Protein Meals: 5 - 7 kg/T, Fish Meals: 15 - 20 kg/T

6. PACKAGING

HDPE export worthy recipients on wooden fumigated pallets.
Available net weights: (0.5 lt* / 1.0 lt* / 5 lt* / 25 kg /, 200 kg /, 1000 kg (IBC) / bulk.
*Marked unit packs are packed in an outer carton up to max. 25 kg.

7. SHELF LIFE

2 years stored in a cool and dry environment, away from direct sunlight, closed container
