

PRODUCT INFO  
& DATASHEET

## **SICOSAL<sup>®</sup> LIQUID - Code No AM15** **Strong Salmonella Inhibitor for animal feeds**

### **PRODUCT DESCRIPTION**

SICOSAL<sup>®</sup> LIQUID is a synergistic formulation of formic acid, propionic acid, lactic acid and surfactants.

SICOSAL<sup>®</sup> LIQUID is a synergistic combination of acids with strong antimicrobial properties, and pH lowering effect.

SICOSAL<sup>®</sup> LIQUID reduces the growth of pathogenic bacteria in the feed and the gastro-intestinal tract, especially Salmonella.

### **INGREDIENTS**

A broad spectrum anti-bacterial activity based upon: formic acid, lactic acid and propionic acid.

### **SPECIFICATIONS**

- \* Appearance : Clear liquid
- \* Solubility : Soluble in water

### **ADVANTAGES**

- \* Strong action against salmonella
- \* Prevents contamination of Salmonella free feeds
- \* Improves nutrient digestibility
- \* Prevents growth of harmful bacteria both in feed and gastro-intestinal tract
- \* Reduces mortality & diarrhoea and wet litter occurrence

### **RECOMMENDED DOSAGE RATE**

Feeds: 2 - 3 kg/ton of feed

(for severe contaminations higher dosage rates can be recommendable)

### **STORAGE**

Store dry, dark and cool.

### **STABILITY**

min. 24 months after production date.

### **STANDARD PACKING**

25 kg cans / 250 kg drums / 1000 kg IBC.
