

**PRODUCT INFO
& DATASHEET**

ARSANILIC ACID 100 % GROWTH PROMOTOR

DESCRIPTION

A free flowing odourless powder.

SPECIFICATIONS

Arsanilic acid 100 %
(Guaranteed min. 98 %)

ADVANTAGES

- Lowest cost additive for improvement of growth rate and feed conversions in swine, chickens and turkeys... gives better return on money invested.
- Safest arsenical growth stimulant.
- Classified by F.D.A. as "Not New Drug".
- Approved for use with numerous other drugs.

USE & DOSAGE

- Chickens and turkeys : Mix 45-90 grams (0.5 - 0.01 % arsanilic acid) of ARSANILIC ACID - 100 % in 2,000 pounds of complete feed and feed continuously.
- Swine : For growth stimulation and improved feed efficiency, mix 45-90 (0.005 - 0.01 % arsanilic acid) of ARSANILIC ACID - 100% in 2,000 pounds of complete feed and feed continuously. For the control of swine dysentery mix 255-360 grams (0.25 - 0.04 % arsanilic acid) of ARSANILIC ACID - 100 % in 2,000 pounds of complete feed for 5- days.

Manufacturing suggestions:

ARSANILIC ACID - 100 % should be uniformly mixed throughout the finished feed. Hazardous: avoid inhalation of dust during handling and mixing, avoid contamination of food or feedstuffs : avoid contact with skin, eyes and clothing. Wash thoroughly after handling, poisonous if swallowed; induce vomiting, administer 10 % sodium thiosulfate : solution by mouth.

WARNING

Discontinue feed containing arsanilic acid five days before slaughtering animals for human consumption to permit elimination of drug from the edible tissues. Allow as sole source of organic arsenic. Overdosage or lack of water intake may result in leg weakness or paralysis.

PACKING

100 lb. drum

FOR FEED MANUFACTURING PURPOSES ONLY.
