

SICOFLOR BALTIC PEAT SUBSTRATES (Latvia)

SICOFLOR BALTIC PEAT SUBSTRATE

Special formula for rice seedling.

Certificate of analysis & Technical data

06/2021

Field of application: The Baltics rice seedling substrate contains special fertilizers that promote rooting and increase the disease resistance of young plants. Recipe: pH value * (CaCl₂) Salt content * (g/l) 4,0 4,5 5,0 5,5 6,0 6,5 N-nitrogen * (CaCl₂) 140 mg/l e (CaCl₂) 120 mg/l PyOsphosphate * (CAL) Technical data: K₂O-potassium * (CAL) 190 mg/l Structure NPK ratio 1-0,6-1,4 0,80 kg/m³ PG-Mix 18-10-20 1,0 1,5 2,0 3,0 Baltic white peat Mineral nutrients have been added to the Salt content (g/l) substrate. Potting, pot size: 7-9 cm ☑ Trays contains wetting agent a contains clay 8-11 cm General propagation, soil blocks ☐ Growbag 8-14 cm contains sand □ >12 cm ☐ Tubs oontains slow release fertilizer ☐ Hanging baskets Cont. >11 ☐ Planting soil ☐ Cont. >31 customized ☐ Lawn Constituents and additives Effect on the substrate Slightly decomposed raised-bog peat (white peat) increases the air capacity and improves the structural stability Lime (Calcium carbonate) adapts perfectly the pH-value to the specific requirements of the plants Top-Quality compound fertilizer supplies the plants immediately with all macro and micro-nutriens Micro-nutrient fertilizer supplies the plants additionally with: Mg, B, Cu, Mn, Mo, Fe and Zn Agrosil Highly effective root stimulant. Promotes the formation of a strong root system Wetting agent Instant plus improves the water uptake of the substrate, particulary of the dry material
