& DATASHEET**

**SICO "EASYMIX" POULTRY MACRO PROTEIN CONCENTRATES (MV)
LAYMIX-20/35 (Code 2105.00)**

**Concentrate for layers (from 20 weeks till end of lay)
20% inclusion rate (200 kgs per ton of feed)**

DESCRIPTION

SICO "EASYMIX" Macro Protein Concentrates 20-30% inclusion rates are a high quality mix of marine & vegetable (MV) protein sources and contain all the essential vitamin, mineral, oligo-elements, amino-acids, protein, energy and fiber requirements of the animals. Any antibiotic / growth promotor and/or coccidiostat can be added upon client's specific request. We can also make our own proposals. SICO Macro Protein Concentrates are especially designed for the home feedmiller, who does not want to stock many different ingredients. They can be mixed only with yellow maize or other locally available cereals (and also wheatbran if available) and a local calcium source for Laymix-20/35 to produce high quality complete feeds. Least cost computerised feed formulation service is available for clients having bought our concentrates. We need an indication of all available raw materials at client's plant and their respective costprices, and where necessary the analysis of the raw materials (if deviating from standard analysis).
