

PRODUCT INFO
& DATASHEET

SICO-FARMCARE STRESS -L (liquid) and -P (powder)

Production stress management, immunomodulator

01/2021

1. INTRODUCTION & DESCRIPTION

Herbal immunomodulator, adaptogenic and anti-stress preparation.

- Reduces thermal, transport and production stress
- Increases body weight
- Increases resistance to diseases

High immunity is essential to prevent viral and bacterial infections. SICO-FARMCARE STRESS inhibits stress path and decreases damages caused by stress (temperature, transportation etc.). By increasing immunity SICO-FARMCARE STRESS prevents viral infections and improves production parameters i.e. egg laying, hatching, meat quality.

* Categories

- poultry
- ruminants
- swine

Tags : Heat stress, resistance, vaccination

Product ID : 5787

2. ADDITIONAL INFORMATION

* Application

- Increases immunity
- Post- vaccination response
- Transportation
- Viral infections
- Heat stress

* Benefits

MONOGASTRIC:

- decreases number of viral infections
- improves after vaccination response
- improves egg laying and hatching (summer time)
- prevents cannibalism

RUMINANTS

- improves meat quality
- decreases problems during and after transportation
