& DATASHEET**

Specialty Feed Additives – Prime Series

SICOTOX PRIME DRY +

Clay based mineral toxinbinder (EU approval as mycotoxin binder)
(code nr. 1003749)

revised 01/2020

1. SCOPE

Feed quality accounts for the larger part of a successful intensive animal rearing operation. Raw materials and compound feeds require special care in order not to make them a source of mechanisms (poisonous substances, interference with digestibility, oxydation and free radicals) that affect feeding efficiency and animal production response. Such mechanisms can cause severe economic losses to the producer.

Carefully selected and proportioned feeding materials and additives help to ensure making quality feedstuffs available to the animals even under the most severe conditions.

2. DESCRIPTION

The product is a carefully manufactured and specially designed additive for animal feedstuffs.

3. COMPONENTS

Complexed hydrated aluminium silicate.

4. PHYSICAL & TECHNICAL SPECIFICATIONS

Physical appearance	:	free flowing powder
Colour	:	greyish - beige
pH (10%)	:	9.5 – 10.5
Moisture	:	Max 12 %
Specific gravity	:	0.8 – 1 kg/l

Colour change or variation does not affect performance.

5. APPLICATION & DOSAGE

Feed, raw material and concentrates: 2 - 5 kg/T of complete feeding stuff

6. PACKAGING

Standard 25 kg export worthy bags on wooden fumigated pallets. Other net weights 1 kg*, 5 kg*, 10 kg, 20 kg, 750-1000kg, bulk on demand.

*Marked unit packs are packed in an outer carton up to max. 25 kg.

7. SHELF LIFE

2 years when stored in a cool and dry environment out of direct sunlight in unopened packing.
