Nutritional Oral Liquids

SICOVIT AD3E-80 ORAL

Solution for oral administration

Code N° OS26

Composition:

Contains per ml:

Vitamin A, retinol-palmitate	50 000 IU.
Vitamin D3,cholecalciferol	10 000 IU.
Vitamin E, alpha-tocopherol acetate	20 mg
Vitamin C	100 mg
Solvents ad.	1 ml

2. Description

Vitamin A is involved in the process of formation and preservation of function of epithelial tissues and mucous membranes, is important for fertility and is essential for vision. Vitamin D3 regulates and corrects calcium and phosphate metabolism in blood and plays an important role in the uptake of calcium and phosphate from the intestines. Especially in young, growing animals vitamin D3 is essential for the normal development of skeleton and teeth. Vitamin E is as a fat-soluble intracellular antioxidant, involved in stabilising unsaturated fatty acids, thereby preventing toxic lipo-peroxides formation. Furthermore, vitamin E protects the oxygen-sensitive vitamin A from oxidative destruction in this preparation. Vitamin C is an antioxidant which is needed for proper operation of several physiological functions.

3. Indications:

SICOVIT AD3A-80 ORAL is a well balanced combination of vitamin A, vitamin D3, vitamin E and vitamin C for calves, cattle, goats, poultry, sheep and swine. used for:

- Prevention or treatment of vitamin A, vitamin D3, vitamin E and vitamin C deficiencies in farm animals.
- Prevention or treatment of stress (caused by vaccination, diseases, transport, high humidity, high temperatures or extreme temperature changes).
- Improvement of feed conversion.

4. Side effects:

No undesirable effects are to be expected when the prescribed dosage regimen is followed.
